

## Vehicle Threat Detection System

*Detects Threats on the Vehicle from a Safe Distance*  
*World's first Stand-Off Car bomb Detection System*

**Reduce the Car Bomb Threat with HENRY MCB**

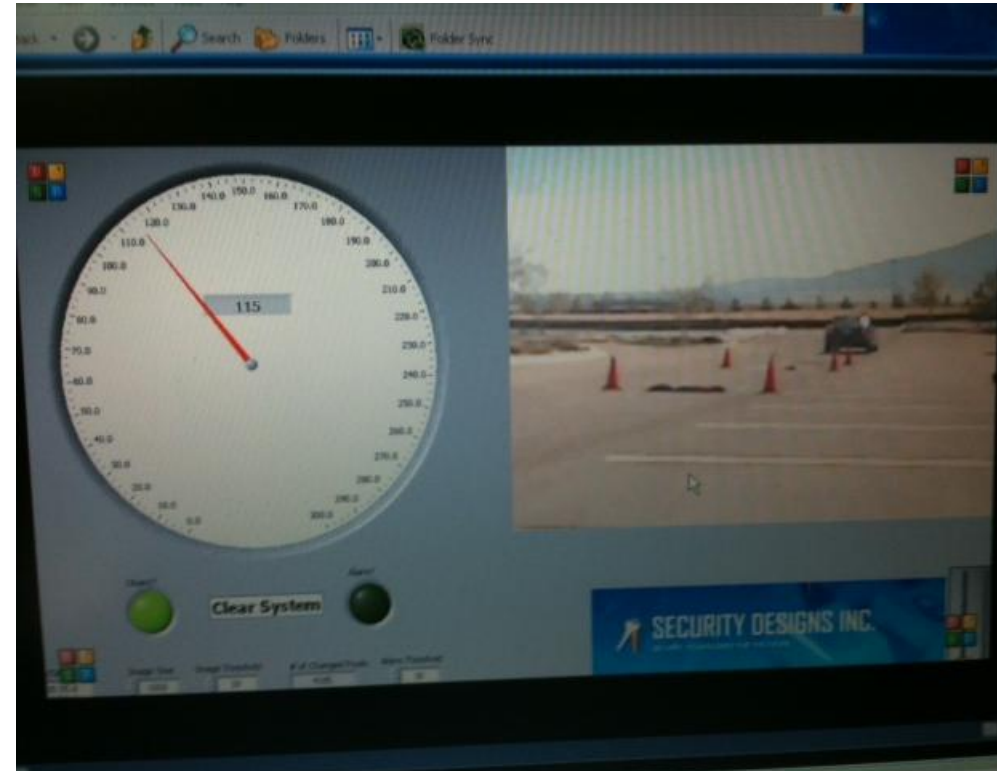

### Detection of Threats

#### HENRY-MCB

Security Designs Inc high performance HENRY-MCB detections system provides unprecedented performance with the automatic detection and recognition, of possible hazards on or in a moving vehicle at a max range of 4.5 meters while the operator is 50 meters. HENRY-MCB with advanced real-time ATR algorithms represents a proven breakthrough with a revolutionary long and short range technology not available in the past. HENRY provides user-friendly RED LIGHT ON for a threat along with a very loud alarm noise for the easiest determination of threats

**NO MORE DRIVING UP TO THREATS ON THE STREET CORNER**  
**NO MORE THREATS ATTACHED TO THE VEHICLE**  
**DETECTS NON-METALLIC AND METALLIC THREATS**

## HENRY MCB

## Vehicle Scanning at Checkpoint

**Operators Position can be up to 300 meters from the test area**

## HENRY MCB CHECKPOINT APPLICATION
